

ELECTRICAL METAL PRODUCTS  
INCORPORATED

49-61 CLYMER ST.      BROOKLYN, N. Y.

MAR 18 1940

## P R E F A C E

More than ever before, there is today in the illumination industry a definite need for scientific lighting—for with it comes increased efficiency and greater economy. Taking our cue from our lighting engineers, ELECTRICAL METAL PRODUCTS constructs its fitments in line with their recommendations, so that all our products are "DESIGNED FOR BETTER LIGHTING" in the home. We feel that in following this path we are doing our share towards making this a better and brighter world to live in.

However, mere utility is hardly sufficient in times where much emphasis is placed on beauty. The enlightened public is becoming more cognizant of the beauty in things about it and realizes increasingly that beautiful objects of any kind are really a pleasure that is lasting and permanent. Indeed—"A thing of beauty is a joy forever . . ." The development of an aesthetic sense by a discriminating public is the second large motivating factor in the construction of all EMP products.

We feel that in combining the two above factors with the third all important factor — All Economy in line with all Practical Construction — we have done our part in giving the general public the best dollar for dollar return possible.

These new EMP lines mark the culmination of twenty-five years of engineering skill catering to the lighting fixture consumer. It is our earnest intention to continue in the path we have pioneered and to make such changes from time to time as will reflect a healthy growth in line with the trend of the times.

MAR 18 1940

## IMPORTANT INFORMATION

**Dimensions**—are given on outermost points, and as accurate as possible. Finished products may vary slightly. When ordering include illustrative letters alongside of numbers.

**Finishes**—those specified are found to be most practical. Additional time and cost should be allowed on special finishes.

**Shipping Instructions**—please specify exact routing or our shipping department will be compelled to use its best judgment. All merchandise shipped F. O. B. Brooklyn, New York. All prices subject to State and Federal Taxes. All items individually boxed at no additional cost.

**Damage Claims**—our responsibility ceases when accepted by transportation company in good order. All merchandise should be examined upon receipt and claim taken up with transportation company. We will always be ready to assist in any way possible towards collection of claims.

**Wiring**—please specify details such as switches, and keyless or pull chain sockets. We operate under an agreement with the International Brotherhood of Electrical Workers Local #3, New York.

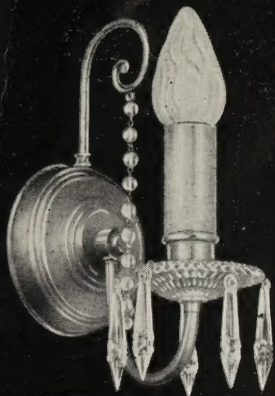

All C.O.D. orders must be accompanied with 25% cash.
